Improve **Security Risk Management** and **Decision Making** for Enterprises

ARGO
SECURITY MANAGEMENT

Until now, security professionals had to rely on complex and fragmented cybersecurity ecosystems with siloed information that hindered collaboration and resulted in inefficiency and difficulty in prioritizing threats.

The Argo Security Management platfom provides a comprehensive solution for real-time security data aggregation and visualization which increases the effectiveness of security teams.

Unified View: Aggregates and curates security data from various sources, including SIEM, MDR, XDR, GRC, vulnerability management, and more, offering a single pane of glass for holistic security insights.

Actionable Intelligence: Powerful visualizations enable security managers to identify trends, prioritize threats, and make informed decisions quickly.

Reduced Silos: Unifies data silos across tools and empowers teams with a shared understanding of the security landscape.

Improved Efficiency: Streamlines data analysis, saving valuable time spent juggling multiple platforms and reports.

Argo Security Management **empowers** security and compliance leaders to rapidly make **critical decisions to safeguard enterprises.**

Built for Security and Compliance Leaders

Argo Security Management was developed by CISO Global's security professionals who understand the challenges of managing a complex security ecosystem. Argo's guiding principles are:

Digital-First Approach: Delivers data in a user-friendly format for enhanced efficiency.

Data Curation: Aggregates and curates disparate datasets to provide a unified view of your security posture.

Intuitive Navigation: Design a platform that is easy to navigate, report on, and drill down into specific details.

Data Science & AI: Leverages advanced technologies like artificial intelligence (AI) and machine learning to extract valuable insights from your security data.

Benefits:

Improve Environment-Wide Visibility: Overcome data silos and gain a holistic view of your security posture.
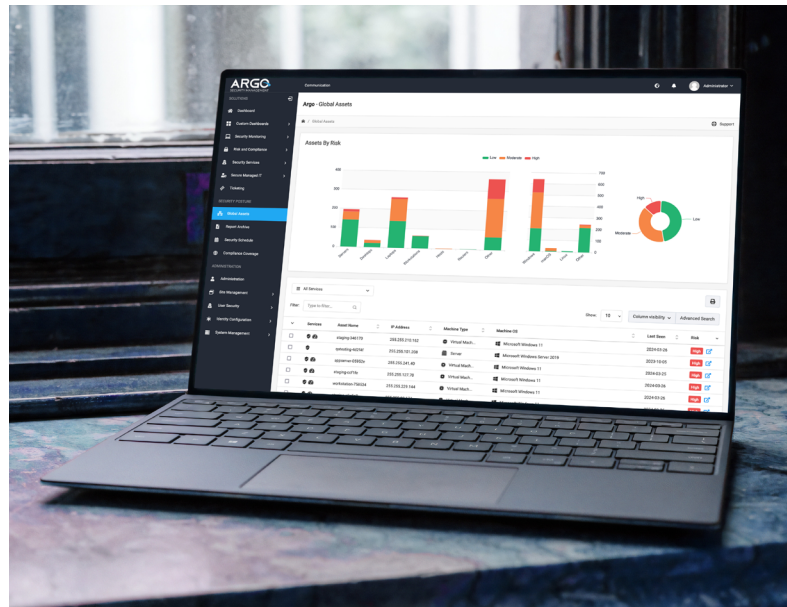

Prioritize Threat Mitigation: Leverage powerful visualizations to build individual risk profiles for assets and prioritize mitigation efforts based on threat level and asset value.

Streamline Collaboration: Foster a shared understanding of security trends across your team, enabling better communication and faster response.

Strategic Decision Making: Integrates specialized threat-informed data and AI to gain deeper insights and make data-driven decisions with confidence.

Platform Agnostic: Argo Security Management seamlessly integrates with your existing security tools and services, regardless of vendor.

Holistic Cybersecurity in a Single Pane of Glass

RISK & COMPLIANCE

- Gap Analysis
- Audit & Assessment
- Third-Party Risk Management
- FedRAMP & StateRAMP
- Compliance Support
- Risk Advisory Services
- Virtual CISO
- Managed GRC
- TiGRIS
- 25+ Security Frameworks Supported

SECURITY OPERATIONS & INCIDENT RESPONSE

- Extended Detection & Response
- Managed Detection & Response
- Security Information & Event Management
- SOC as a Service
- Vulnerability Management Program
- Attack Surface Reduction
- Incident Response
- Digital Forensics
- Threat Intelligence

SECURITY ARCHITECTURE & ENGINEERING

- Cloud Security
- Data Protection
- Remediation
- Secure Network Architecture
- Identity & Access Management
- Secured Managed Services

SECURITY TESTING & CERTIFICATION TRAINING

- Penetration Testing
- Tabletop Exercises
- Training Programs
  -Security Testing Methodolgy
  -CMMC & Other Certifications
  -Security Awareness Training
- Red Team
- Purple Team
- Cloud, Network, Application, & Physical Pen Tests

About Us

CISO Global (NASDAQCM: CISO), based in Scottsdale, Arizona, is a Top #25 managed cybersecurity and compliance services provider and industry leader in proprietary software that is delivering innovative solutions through its newly developed AI and ML-powered product portfolio. The company protects the most demanding businesses and government organizations against continuing and emerging security threats and ensures their compliance obligations are being met. For more information about the company, visit CISO Global on LinkedIn, X or at **www.ciso.inc**.
