SentryTEST

PENETRATION TESTING EXPERTS ON YOUR SIDE

Test Your Defenses Before Attackers Do

Choosing the right provider can be critical to the success of a security program. Don't waste your time with providers who don't understand your compliance requirements and deliver a report that will not stand up to an audit. Say goodbye to overly technical reports that cannot be understood by executive leadership.

SentryTEST's Boardroom-Ready and Audit-Ready reports will stand up to an audit, and executive leadership will understand the importance of taking action on the findings.

> It takes a specialized provider with a proven track record of building highly effective security programs to deliver a Boardroom-Ready & Audit-Ready penetration test.

Cerberus Sentinel's highly skilled Red Team follows industry-leading penetration testing methodologies for testing your networks, applications, physical protections, and people via social engineering. We take the mindset of the attacker so that you get a real-world assessment of your critical security controls. For more advanced security programs, ask about our Purple Team Pen Test engagement.

A Cerberus Penetration Test...

- Identifies which vulnerabilities are most critical, and in need of immediate remediation
- Clearly prioritizes vulnerabilities in an actionable report
- Is performed by Cerberus's industry-leading Red Team
- Is Boardroom-Ready and Audit-Ready
- Delivers reporting that executive management will understand
- Protects your business and your customers' trust
- Provides validation for those clients and partners who want assurance of your security posture

Benefits of Working with Cerberus

- **Actionable Guidance.** Helps you proactively address security needs and take steps to prevent a real-life cyber attack.

- **Customized Testing.** Flexible testing options, giving your organization the freedom to receive the most appropriate type of penetration test and maximize value including applications, entire networks, devices, and more.

- **Clear, Concise, Prioritized Results.** Cerberus will provide details of all testing activities – including what we found, how we found it, and how to fix it.

- **Availability of a Remediation Team.** End the cycle of repeated vulnerabilities year after year by leveraging our subject matter experts for challenging or time-consuming remediation tasks.

- **Work with Experts.** Highly skilled team with over 20 years penetration testing experience.

- **Deep Bench.** Numerous former NSA and military intelligence personnel on staff

- **Retest Included.** Post-remediation validation test performed upon request.
