Protect Your Operational Uptime and Availability from Ransomware

Ransomware Prevention

Extended Detection and Response

XDR aggregates all security data from disparate toolsets, enabling CISO Global analysts to see and stop ransomware attacks in minutes.
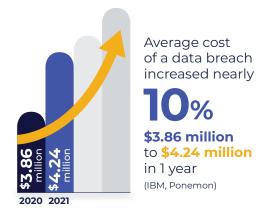

- Around-the-clock security monitoring, response, and remediation for your whole environment
- Powered by our own US-based, 24x7x365 Security Operations Center, fully staffed with highly trained and certified security analysts
- Includes AI, machine learning, automation, human-led threat hunting, and more

$3.86 million — 2020
$4.24 million — 2021

Average cost of a data breach increased nearly

10%

$3.86 million to **$4.24 million** in 1 year
(IBM, Ponemon)

CISO Risk Management

- Most hackers gain entry through a phishing email containing malware. Implement regular employee security awareness training, including phishing exercises
- Have an incident response plan and incident response team in place to quickly respond to and contain the damage
- Keep software patching up to date and establish compensating controls where this isn't possible.

AVERAGE DOWNTIME COSTS
from a Ransomware Attack

1h — **$140K** to **$540K** per hour

$540K   (Gartner)

PENETRATION TESTING

Purple Team Exercises

Your networks will have vulnerabilities no matter how hard you try to secure them. During a pen test, we view your network with the eyes of an attacker and use the same tools they use to try to get in.

- CISO's Security Testing (Red) Team attacks your network.
- Your internal IT (Blue) Team defends against the attack.
- Our Red Team works with your Blue Team to identify gaps in your defense and supports real-time remediation to close them.

STRATEGY & RISK

- Gap Analysis
- Audit/Assessment
- Third Party Risk Management
- FedRAMP
- StateRAMP
- CMMC
- Advisory
- Virtual CISO
- Managed Compliance
- Managed GRC

CYBER DEFENSE OPERATIONS

- Extended Detection & Response
- Managed Detection & Response
- SIEM as a Service
- Threat Hunting
- Cyber Threat Intelligence
- Digital Forensics
- Vulnerability Management Program
- Attack Surface Reduction
- Cyber Incident Response

SECURITY ARCHITECTURE & ENGINEERING SOLUTIONS

- Secured Managed Services
- Advanced Firewall Management
- Identity & Access Management
- Cloud Security
- Data Protection
- Remediation

READINESS & RESILIENCY

- Penetration Testing
- Tabletop Exercises with Incident Response Retainer
- Training Programs
